The Sports Nutrition and High Energy Supplement Market

The sports nutrition and high energy supplement market is comprised of sports beverages, sports food and sports supplements. According to BCC Research's 2008 Global Research Report, sports beverages maintain the largest market share, with approximately $24.9 billion in annual sales in 2007. The sports food segment had approximately $1.2 billion in annual sales and the sports supplement segment saw 2007 annual sales of approximately $1.1 billion. BCC projected that the sports supplement market would reach $2.3 billion by 2013.

According to BCC Research, the United States is the largest consumer market for sports nutrition products, with annual sales reaching approximately $22 billion in 2007, and projected sales of $29 billion in 2013. Western Europe and Japan are the second and third largest consumers. The key market drivers for sports nutrition products are taste, price, variety and brand loyalty. In recent years, the consumption of sports nutrition products has shifted to mainstream consumers who have become the key drivers of growth within the industry.

- Delivers 25g of protein;
- Serves as ideal nighttime protein source; and
- Doubles as digestive enzyme and probiotic blend.

Casein™ delivers a steady, prolonged release of amino acids, works hard while body is at rest and promotes added nutrient utilization through the natural enzymes. As a slow digesting protein, Casein repairs and rebuilds muscle at night while you are asleep—feeding your muscles even hours after you went to bed. The great-tasting shake also works overtime readying you for that next day's workout.

Hybrid N.O.™

Nitric Oxide Amplifier

- Dramatically enhance muscle pumps
- Increase muscle fullness and vascularity
- Maximize vasodilation

Hybrid N.O.™ promotes muscle pumps through enhanced vasodilation, utilizes GlycoCarn™, a scientifically-researched nitric oxide booster, and encourages blood flow throughout the muscles. MP Glutamine™ helps athletes rehydrate, rebuild and recover from even the toughest of workouts quicker and more efficiently.

PERFORM Elite™

Pre-Performance Amplifier

- Fuel power for long-lasting energy;
- Increase strength & endurance;
- Enhance focus & intensity; and
- Build lean muscle mass.

Perform Elite™ helps: fight fatigue, boost performance, build muscle, amp up intensity, hydrate muscles and feed muscle cells the nutrients they need. People need a pre-workout supplement because it prepares them to stay focused, energetic and fully-powered from start to finish. In Perform Elite™, ingredients like creatine and beta alanine feed muscle cells the nutrients they need to grow bigger and stronger. Without a pre-workout like Perform Elite™, muscles don't have the building blocks they need to gain size and strength.

RECOVER Elite™ (540g)

Post-Workout Recharger

- Optimize athletes' "muscle building";
- Promote post workout growth & repair;
- Replenish vital nutrients; and
- Speed recovery time.

Recover Elite™ helps athletes recover quicker and more effectively, repair muscle cells, maintain nutrient levels and grow bigger and stronger. When people work out, their muscle cells break down. In that post-workout period, it is important to feed these cells a supply of the right nutrients like the ones in Recover Elite™, so they can rebuild properly. When this is done correctly, muscles become both stronger and larger. If you don't use a post-workout supplement, these cells don't have the building blocks they need to recover and you won't increase size or strength.

Future Products

We have trademarked and registered an energy product for active lifestyles and competitive athletes, under the name Energel®. This product will be distributed primarily via internet sales, convenience stores, cycling shops, ski shops, and fitness and runner shoes retail sales stores by the end of the second quarter of 2012.

Sales & Distribution

We sell our products both domestically and internationally. With respect to domestic sales, we have three traditional distribution systems:

1) Approximately 40% of sales are through a domestic Internet site named Bodybuilding.com ("Body Building"), which is the largest online retailer of sports nutrition products in the United States. Body Building awarded MusclePharm the title of the "Breakout Brand," "Best Packaging" and "Best New Product for Assault" in 2011 and MusclePharm is now the number two best-selling brand on BB.com, and has two products in their top ten best sellers, and eight products in the top fifty selling products out of over 14,000 sku's. In addition to Body Building.com, we also sell domestically through several distributors and over 100 Internet sites;

2) We sell through traditional brick and mortar stores, and are carried in approximately 450 The Vitamin Shoppes outlets and we sell our products into over 5000 GNC stores, and we are in 400 Vitamin World retail stores;

3) We have regional salesmen that support wholesale distributors like Europa, selling in up to 15,000 smaller retail or regional stores. We also work with other large distributors who have begun to place the Company's product in small retail stores and gyms across the United States. Internationally, we are expanding rapidly into Central America, Mexico, Brazil, the Middle East, Europe, Russia, and the UK, and have Sportika Export as our international distributor that services over 120 countries.

In addition, we just recently launched a partnership with Eurpac to distribute our line of products to U.S. military bases and stores all over the world.

Marketing Strategy

Our core marketing strategy is to brand MusclePharm as the "must have" nutritional supplement line for high performance athletes. We want to be known as the athlete's company, run by athletes who create their products for other athletes both professional and otherwise. We have endorsements from over 50 UFC fighters, well-known NFL players, as well as top X-Game and fitness athletes. Athletes are considered role models and many people strive to emulate their fitness and well-being regimen. Athlete sponsorships are the most logical tactic for our business. The objective of these athletic endorsements is to build both consumer awareness and confidence and to drive consumer demand for our products.

MusclePharm in 2011 became the Official Supplement Provider and Sponsor of the Ultimate Fighting Championship (“UFC”). Our agreement includes prominent logo placement on the mat, and our branding can be seen on Fox and pay-per-view worldwide.

The fighters we sponsor feature our brand on their uniforms and we also extensively advertise at the Ultimate Fighting Championship events. In 2011, we launched a state-of-the-art website that will tap into the social networking world, further expanding our brand and consumer awareness.

The Company is also currently engaged in various in-store promotions, including point-of-purchase stands, aisle displays in our retail outlets, as well as sample demonstrations and athlete appearances in Wal-Mart, GNC, Vitamin World and Vitamin Shoppe locations.

Research and Development

Each and every product sold by MusclePharm is the end result of a long development process involving leading nutrition scientists, doctors, and top professional athletes.

Manufacturing and Product Quality

We are committed to producing and selling highly efficacious products that are trusted for their quality and safety. To date, our products have been outsourced to a third party manufacturer where the products are manufactured in full compliance with the Good Manufacturing Practice standards set by the Food & Drug Administration.

Trademarks and Patents

We regard our trademarks and other proprietary rights as valuable assets and believe that protecting our key trademarks is crucial to our business strategy of building strong brand name recognition. These trademarks are crucial elements of our business, and have significant value in the marketing of our products.

Our policy is to pursue registrations for all of the trademarks associated with our products. Federally registered trademarks have a perpetual life, provided that they are maintained and renewed on a timely basis and used correctly as trademarks, subject to the rights of third parties to attempt to cancel a trademark if priority is claimed or there is confusion of usage. We rely on common law trademark rights to protect our unregistered trademarks. Common law trademark rights generally are limited to the geographic area in which the trademark is actually used, while a United States federal registration of a trademark enables the registrant to stop the unauthorized use of the trademark by any third party anywhere in the United States. Furthermore, the protection available, if any, in foreign jurisdictions may not be as extensive as the protection available to us in the United States.

Although we seek to ensure that we do not infringe on the intellectual property rights of others, there can be no assurance that third parties will not assert intellectual property infringement claims against us.

Competition

The sports nutrition business is highly competitive. Competition is based primarily on quality and assortment of products, marketing support, and availability of new products. Currently, our main competitors are three private companies: Optimum Nutrition, Inc. (“Optimum”), Iovate Health Sciences, Inc. (“IHS”), and Bio-Engineered Supplements and Nutrition, Inc. (“BSN”). Optimum is a wholly owned subsidiary of Glanbia Nutritionals, Inc., an international nutritional ingredients group. Optimum owns and operates two brands of nutritional supplements (Optimum Nutrition and American Body Building), providing a line of products across multiple categories. IHS is a nutritional supplement company that delivers a range of products to the nutritional marketplace. Headquartered in Oakville, Ontario, Canada, IHS’s line of products can be found in major retail stores and include such brands as Hydroxy-Cut™, Cell-Tech™, Six Star Nutrition™. BSN is also a sports nutrition leader whose top products include No-Explode™ and Syntha Six Protein™.

MusclePharm intends to compete by aggressively marketing our brand, emphasizing our relationships with professional athletes, and maximizing our relationships with those athletes, retail outlets and industry publications that align with our vision. We also tout the strength of the science behind MusclePharm products, as this is a key point of difference.

Regulatory Matters

The manufacture, packaging, labeling, advertising, promotion, distribution and sale of our products are subject to regulation by numerous governmental agencies. Our products are subject to regulation by, among other regulatory entities, the Consumer Product Safety Commission (CPSC), the U.S. Department of Agriculture (USDA), the Environmental Protection Agency (EPA) and the U.S. Food and Drug Administration (FDA). Advertising and other forms of promotion and methods of marketing are subject to regulation primarily by the U.S. Federal Trade Commission (FTC), which regulates these activities under the Federal Trade Commission Act (FTCA). The manufacture, labeling and advertising of our products are also regulated by various state and local agencies as well as those of each foreign country to which we distribute our products.

The Dietary Supplement Health and Education Act of 1994 (DSHEA) revised the provisions of the Federal Food, Drug, and Cosmetic Act (FFDC Act) concerning the regulation of dietary supplements. All of the products we market are regulated as dietary supplements under the FFDC Act.

Under the current provisions of the FFDC Act, there are four categories of claims that pertain to the regulation of dietary supplements. Health claims are claims that describe the relationship between a nutrient or dietary ingredient and a disease or health related condition and can be made on the labeling of dietary supplements if supported by significant scientific agreement and authorized by the FDA in advance via notice and comment rulemaking. Nutrient content claims describe the nutritional value of the product and may be made if defined by the FDA through notice and comment rulemaking and if one serving of the product meets the definition. Statements of nutritional support or product performance, which are permitted on labeling of dietary supplements without FDA pre-approval, are defined to include statements that: (i) claim a benefit related to a classical nutrient deficiency disease and disclose the prevalence of such disease in the United States; (ii) describe the role of a nutrient or dietary ingredient intended to affect the structure or function in humans; (iii) characterize the documented mechanism by which a dietary ingredient acts to maintain such structure or function; or (iv) describe general well-being from consumption of a nutrient or dietary ingredient. In order to make a nutritional support claim, the marketer must possess adequate substantiation to demonstrate that the claim is not false or misleading and if the claim is for a dietary ingredient that does not provide traditional nutritional value, prominent disclosure of the lack of FDA review of the relevant statement and notification to the FDA of the claim is required. Drug claims are representations that a product is intended to diagnose, mitigate, treat, cure or prevent a disease. Drug claims are prohibited from use in the labeling of dietary supplements.

Claims made for our dietary supplement products may include statements of nutritional support and health and nutrient content claims when authorized by the FDA or otherwise allowed by law. The FDA's interpretation of what constitutes an acceptable statement of nutritional support may change in the future, thereby requiring that we revise our labeling. In addition, a dietary supplement that contains a new dietary ingredient (i.e., one not on the market before October 15, 1994) must have a history of use or other evidence of safety establishing that it is reasonably expected to be safe. The manufacturer must notify the FDA at least 75 days before marketing products containing new dietary ingredients and provide the FDA the information upon which the manufacturer based its conclusion that the product has a reasonable expectation of safety. There is no assurance that the FDA will accept the evidence of safety for any new dietary ingredients that we may wish to market, and the FDA's refusal to accept that evidence could prevent the marketing of the new dietary ingredients and dietary supplements containing a new dietary ingredient.

Our dietary supplements must comply with the Dietary Supplement and Nonprescription Drug Consumer Protection Act, which became effective on December 22, 2007. This Act amends the FFDC Act to mandate the reporting of serious adverse events received by us to the FDA.

The FDA has also announced its intention to promulgate new GMPs specific to dietary supplements, to fully enforce DSHEA and monitor compliance with the Bioterrorism Act of 2002.

Our failure to comply with applicable FDA regulatory requirements could result in, among other things, injunctions, product withdrawals, recalls, product seizures, fines and criminal prosecutions. We intend to comply with the new GMPs once they are adopted. The new GMPs, predicted to be finalized shortly, would be more detailed and stringent than the GMPs that currently apply to dietary supplements and may, among other things, require dietary supplements to be prepared, packaged, produced and held in compliance with regulations similar to the GMP regulations for drugs. There can be no assurance that, if the FDA adopts GMP regulations for dietary supplements, we will be able to comply with the new regulations without incurring a substantial expense.

As a result of our efforts to comply with applicable statutes and regulations in the United States and elsewhere, we have from time to time reformulated, eliminated or relabeled certain of our products and revised certain advertising claims. We cannot predict the nature of any future laws, regulations, interpretations or applications, nor can we determine what effect additional governmental regulations or administrative orders, when and if promulgated, would have on our business in the future. They could, however, require the reformulation of certain products to meet new standards, the recall or discontinuance of certain products not capable of reformulation, additional record keeping, expanded documentation of the properties of certain products, expanded or different labeling, and/or scientific substantiation. Any or all of such requirements could have a material adverse effect on our business, financial condition and results of operations.

Our advertising of dietary supplement products is subject to regulation by the FTC under the FTCA. Section 5 of the FTCA prohibits unfair methods of competition and unfair or deceptive acts or practices in or affecting commerce. Section 12 of the FTCA provides that the dissemination or the causing to be disseminated of any false advertisement pertaining to drugs or foods, which would include dietary supplements, is an unfair or deceptive act or practice. Under the FTC's Substantiation Doctrine, an advertiser is required to have a "reasonable basis" for all objective product claims before the claims are made. Failure to adequately substantiate claims may be considered either deceptive or unfair practices. Pursuant to this FTC requirement, we are required to have adequate substantiation for all material advertising claims made for our products.

On November 18, 1998, the FTC issued "Dietary Supplements: An Advertising Guide for Industry." This guide provides marketers of dietary supplements with guidelines on applying FTC law to dietary supplement advertising. It includes examples of the principles that should be used when interpreting and substantiating dietary supplement advertising. Although the guide provides additional explanation, it does not substantively change the FTC's existing policy that all supplement marketers have an obligation to ensure that claims are presented truthfully and to verify the adequacy of the support behind such claims. Our outside counsel reviews our advertising claims for compliance with FTC requirements.

The FTC has a variety of processes and remedies available to it for enforcement, both administratively and judicially, including compulsory process, cease and desist orders and injunctions. FTC enforcement can result in orders requiring, among other things, limits on advertising, corrective advertising, consumer redress, divestiture of assets, rescission of contracts and such other relief as may be deemed necessary. A violation of such orders could have a material adverse effect on our business, financial condition and results of operations.

Advertising and labeling for dietary supplements and conventional foods are also regulated by state, county and other local governmental authorities. Some states also permit these laws to be enforced by private attorney generals. These private attorney generals may seek relief for consumers, seek class action certifications, seek class-wide damages, seek class-wide refunds and product recalls of products sold by us. There can be no assurance that state and local authorities will not commence regulatory action, which could restrict the permissible scope of our product advertising claims, or products that can be sold in the future.

Governmental regulations in foreign countries where we plan to or expand sales may prevent or delay entry into the market or prevent or delay the introduction, or require the reformulation, of certain of our products. Compliance with such foreign governmental regulations is generally the responsibility of our distributors for those countries. These distributors are independent contractors over whom we have limited control.

Number of Total Employees and Number of Full Time Employees

We believe that our success will depend greatly on our ability to identify, attract, and retain capable employees. As of April 13, 2012, we had 24 full time employees. Our employees are not represented by any collective bargaining unit, and we believe our relations with our employees are good. We have recently completed staffing for the in-house medical and physiology center on-site in our work-out, fight training and training facilities.

OUR INDEPENDENT AUDITORS HAVE EXPRESSED SUBSTANTIAL DOUBT ABOUT OUR ABILITY TO CONTINUE AS A GOING CONCERN, WHICH MAY HINDER OUR ABILITY TO CONTINUE AS A GOING CONCERN AND OUR ABILITY TO OBTAIN FUTURE FINANCING.

As reflected in the accompanying financial statements, the Company had a net loss of $23,280,950 and net cash used in operations of $5,801,761 for the year ended December 31, 2011, and a working capital deficit and stockholders' deficit of $13,693,267 and $12,971,212, respectively, at December 31, 2011. These factors raise substantial doubt about the Company's ability to continue as a going concern.

The ability of the Company to continue its operations is dependent on management's plans, which include the raising of capital through debt and/or equity markets with some additional funding from other traditional financing sources, including term notes, until such time that funds provided by operations are sufficient to fund working capital requirements. The Company may need to incur liabilities with certain related parties to sustain the Company's existence.

The Company will require additional funding to finance the growth of its current and expected future operations as well as to achieve its strategic objectives. The Company believes its current available cash along with anticipated revenues may be insufficient to meet its cash needs for the near future. There can be no assurance that financing will be available in amounts or terms acceptable to the Company, if at all.

In response to these problems, management has taken the following actions:

- seeking additional third party debt and/or equity financing;
- execute a plan to recapitalize the company;
- continue with the implementation of the business plan;
- generate new sales from international customers; and
- allocate sufficient resources to continue with advertising and marketing efforts.

In their report dated April 13, 2012, our independent auditors stated that our financial statements for the period ended December 31, 2011, were prepared assuming that we would continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

WE WILL NEED TO RAISE ADDITIONAL CAPITAL TO CARRY OUT OUR BUSINESS PLAN.

We will need to raise additional capital to fund the growth of our business. There is no guarantee that we will be able to access additional capital at rates and on terms which are attractive to us, if at all. Without the additional funding needed to fund our growth we may not be able to grow as planned.

OUR FAILURE TO APPROPRIATELY RESPOND TO COMPETITIVE CHALLENGES, CHANGING CONSUMER PREFERENCES AND DEMAND FOR NEW PRODUCTS COULD SIGNIFICANTLY HARM OUR CUSTOMER RELATIONSHIPS AND PRODUCT SALES.

The nutritional sports supplement industry is characterized by intense competition for product offerings and rapid and frequent changes in consumer demand. Our failure to accurately predict product trends could negatively impact our products and inventory levels and cause our revenues to decline.

Our success with any particular product offering (whether new or existing) depends upon a number of factors, including our ability to:

- deliver products in a timely manner in sufficient volumes;
- accurately anticipate customer needs and forecast accurately to the manufacturer in a rapidly expanding business;
- differentiate our product offerings from those of our competitors;
- competitively price our products; and
- develop and/or acquire new products.

Products often have to be promoted heavily in stores or in the media to obtain visibility and consumer acceptance. Acquiring distribution for products is difficult and often expensive due to slotting and other promotional charges mandated by retailers. Products can take substantial periods of time to develop consumer awareness, consumer acceptance and sales volume. Accordingly, some products fail to gain or maintain sufficient sales volume and as a result have to be discontinued. In a highly completive marketplace it may be difficult to have retailers open stock-keeping units (sku's) for new products.

OUR INDUSTRY IS HIGHLY COMPETITIVE, AND OUR FAILURE TO COMPETE EFFECTIVELY COULD ADVERSELY AFFECT OUR MARKET SHARE, FINANCIAL CONDITION AND FUTURE GROWTH.

The sports supplement industry is highly competitive with respect to:

- price;
- shelf space and store placement;
- brand and product recognition;
- new product introductions; and
- raw materials.

Several of our competitors are larger, more established and possess greater financial, personnel, distribution and other resources. We face competition in the health food channel from a limited number of large nationally known manufacturers, private label brands and many smaller manufacturers of dietary supplements.

WE RELY ON A LIMITED NUMBER OF CUSTOMERS FOR A SUBSTANTIAL PORTION OF OUR SALES, AND THE LOSS OF OR MATERIAL REDUCTION IN PURCHASE VOLUME BY ANY OF THESE CUSTOMERS WOULD ADVERSELY AFFECT OUR SALES AND OPERATING RESULTS.

In 2011, two customers accounted for approximately 55% of net sales. Our largest customer in 2011 represented 40% of our sales. In 2010, three customers accounted for approximately 63% of our sales. The largest customer in 2010 accounted for 42% of our sales. The loss of any of our major customers, a significant reduction in purchases by any major customer, or, any serious financial difficulty of a major customer, could have a material adverse effect on our sales and results of operations.

Customer	2011	2010
A	40%	42%
B	15%	9%
C	-%	12%
D	-%	-%
E	-%	-%

ADVERSE PUBLICITY OR CONSUMER PERCEPTION OF OUR PRODUCTS AND ANY SIMILAR PRODUCTS DISTRIBUTED BY OTHERS COULD HARM OUR REPUTATION AND ADVERSELY AFFECT OUR SALES AND REVENUES.

We are highly dependent upon positive consumer perceptions of the safety and quality of our products as well as similar products distributed by other sports nutrition supplement companies. Consumer perception of sports nutrition supplements and our products in particular can be substantially influenced by scientific research or findings, national media attention and other publicity about product use. Adverse publicity from such sources regarding the safety, quality or efficacy of dietary supplements and our products could harm our reputation and results of operations. The mere publication of reports asserting that such products may be harmful or questioning their efficacy could have a material adverse effect on our business, financial condition and results of operations, regardless of whether such reports are scientifically supported or whether the claimed harmful effects would be present at the dosages recommended for such products.

IF WE ARE UNABLE TO RETAIN KEY PERSONNEL, OUR ABILITY TO MANAGE OUR BUSINESS EFFECTIVELY AND CONTINUE OUR GROWTH COULD BE NEGATIVELY IMPACTED.

Key management employees include Brad J. Pyatt, Cory Gregory, Jeremy DeLuca, Larry Meer, John H. Bluher, and certain other individuals. These key management employees are primarily responsible for our day-to-day operations, and we believe our success depends in large part on our ability to retain them and to continue to attract additional qualified individuals to our management team. Currently, we have executed employment agreements with our key management employees. We anticipate having all key executives under new performance based contracts by the end of the second quarter of 2012. The loss or limitation of the services of any of our key management employees or the inability to attract additional qualified personnel could have a material adverse effect on our business and results of operations. We may obtain key man insurance on one or more key executives.

OUR OPERATING RESULTS MAY FLUCTUATE, WHICH MAKES OUR RESULTS DIFFICULT TO PREDICT AND COULD CAUSE OUR RESULTS TO FALL SHORT OF EXPECTATIONS.

Our operating results may fluctuate as a result of a number of factors, many outside of our control. As a result, comparing our operating results on a period-to-period basis may not be meaningful, and you should not rely on our past results as an indication of our future performance. Our quarterly, year-to-date, and annual expenses as a percentage of our revenues may differ significantly from our historical or projected rates. Our operating results in future quarters may fall below expectations. Each of the following factors may affect our operating results:

- our ability to deliver products in a timely manner in sufficient volumes;
- our ability to recognize product trends;
- our loss of one or more significant customers;
- the introduction of successful new products by our competitors; and
- adverse media reports on the use or efficacy of sports nutrition supplements.

Because our business is changing and evolving, our historical operating results may not be useful to you in predicting our future operating results.

THE EFFECTS OF THE RECENT GLOBAL ECONOMIC CRISIS MAY IMPACT OUR BUSINESS, OPERATING RESULTS, OR FINANCIAL CONDITION.

The recent global economic crisis has caused disruptions and extreme volatility in global financial markets and increased rates of default and bankruptcy, and has impacted levels of consumer spending. These macroeconomic developments could negatively affect our business, operating results, or financial condition. For example, if consumer spending continues to decrease, this may result in lower sales.

OUR BUSINESS AND OPERATIONS ARE EXPERIENCING RAPID GROWTH. IF WE FAIL TO EFFECTIVELY MANAGE OUR GROWTH, OUR BUSINESS AND OPERATING RESULTS COULD BE HARMED.

We have experienced and expect to continue to experience rapid growth in our operations, which has placed, and will continue to place, significant demands on our management, operational and financial infrastructure. If we do not effectively manage our growth, we may fail to timely deliver products to our customers in sufficient volume or the quality of our products could suffer, which could negatively affect our operating results. To effectively manage this growth, we will need to hire additional persons, particularly in sales and marketing, and we will need to continue to improve our operational, financial and management controls and our reporting systems and procedures. These additional employees, systems enhancements and improvements will require significant capital expenditures and management resources. Failure to implement these improvements could hurt our ability to manage our growth and our financial position.

WE MAY BE EXPOSED TO MATERIAL PRODUCT LIABILITY CLAIMS, WHICH COULD INCREASE OUR COSTS AND ADVERSELY AFFECT OUR REPUTATION AND BUSINESS.

As a marketer and distributor of products designed for human consumption, we are subject to product liability claims if the use of our products is alleged to have resulted in injury. Our products consist of vitamins, minerals, herbs and other ingredients that are classified as dietary supplements and in most cases are not subject to pre-market regulatory approval in the United States or internationally. Previously unknown adverse reactions resulting from human consumption of these ingredients could occur.

We have not had any product liability claims filed against us, but in the future we may be, subject to various product liability claims, including among others that our products had inadequate instructions for use, or inadequate warnings concerning possible side effects and interactions with other substances. The cost of defense can be substantially higher than the cost of settlement even when claims are without merit. The high cost to defend or settle product liability claims could have a material adverse effect on our business and operating results.

OUR INSURANCE COVERAGE OR THIRD PARTY INDEMNIFICATION RIGHTS MAY NOT BE SUFFICIENT TO COVER OUR LEGAL CLAIMS OR OTHER LOSSES THAT WE MAY INCUR IN THE FUTURE.

We maintain insurance, including property, general and product liability, and workers' compensation to protect ourselves against potential loss exposures. In the future, insurance coverage may not be available at adequate levels or on adequate terms to cover potential losses, including on terms that meet our customer's requirements. If insurance coverage is inadequate or unavailable, we may face claims that exceed coverage limits or that are not covered, which could increase our costs and adversely affect our operating results.

OUR INTELLECTUAL PROPERTY RIGHTS ARE VALUABLE, AND ANY INABILITY TO PROTECT THEM COULD REDUCE THE VALUE OF OUR PRODUCTS AND BRAND.

We have invested significant resources to protect our brands and intellectual property rights. However, we may be unable or unwilling to strictly enforce our intellectual property rights, including our trademarks, from infringement. Our failure to enforce our intellectual property rights could diminish the value of our brands and product offerings and harm our business and future growth prospects.

WE MAY BE SUBJECT TO INTELLECTUAL PROPERTY RIGHTS CLAIMS, WHICH ARE COSTLY TO DEFEND, COULD REQUIRE US TO PAY DAMAGES AND COULD LIMIT OUR ABILITY TO SELL SOME OF OUR PRODUCTS.

As a marketer and distributor of products designed for human consumption, we are subject to product liability claims if the use of our products is alleged to have resulted in injury. Our products consist of vitamins, minerals, herbs and other ingredients that are classified as dietary supplements and in most cases are not subject to pre-market regulatory approval in the United States or internationally. Previously unknown adverse reactions resulting from human consumption of these ingredients could occur (See Item 3. Legal Proceedings).

WE RELY ON HIGHLY SKILLED PERSONNEL AND, IF WE ARE UNABLE TO RETAIN OR MOTIVATE KEY PERSONNEL, HIRE QUALIFIED PERSONNEL, WE MAY NOT BE ABLE TO GROW EFFECTIVELY.

Our performance largely depends on the talents and efforts of highly skilled individuals. Our future success depends on our continuing ability to identify, hire, develop, motivate and retain highly skilled personnel for all areas of our organization, particularly sales and marketing. Competition in our industry for qualified employees is intense. In addition, our compensation arrangements, such as our equity award programs, may not always be successful in attracting new employees and retaining and motivating our existing employees. Our continued ability to compete effectively depends on our ability to attract new employees and to retain and motivate our existing employees.

AN INCREASE IN PRODUCT RETURNS COULD NEGATIVELY IMPACT THE COMPANY'S OPERATING RESULTS AND PROFITABILITY.

The Company permits the return of damaged or defective products and accepts limited amounts of product returns in certain instances. Accordingly, the Company provides allowances for the estimated amounts of these returns at the time of revenue recognition based on historical experience. While such returns have historically been nominal and within management’s expectations and the provisions established, future return rates may differ from those experienced in the past. Any significant increase in damaged or defective products or expected returns could have a material adverse effect on the Company’s operating results for the period or periods in which such returns materialize.

A SHORTAGE IN THE SUPPLY OF KEY RAW MATERIALS COULD INCREASE OUR COSTS OR ADVERSELY AFFECT OUR SALES AND REVENUES.

We obtain all of our raw materials from third-party suppliers with whom we do not have significant long-term supply contracts. Since all of the ingredients in our products are commonly used, we have not experienced any shortages or delays in obtaining raw materials. If things changed, shortages could result in materially higher raw material prices or adversely affect our ability to manufacture a product. Price increases from a supplier would directly affect our profitability if we are not able to pass price increases on to customers. Our inability to obtain adequate supplies of raw materials in a timely manner or a material increase in the price of our raw materials could have a material adverse effect on our business, financial condition and results of operations.

BECAUSE WE ARE SUBJECT TO NUMEROUS LAWS AND REGULATIONS, AND WE MAY BECOME INVOLVED IN LITIGATION FROM TIME TO TIME, WE COULD INCUR SUBSTANTIAL JUDGMENTS, FINES, LEGAL FEES AND OTHER COSTS.

Our industry is highly regulated. The manufacture, labeling and advertising for our products are regulated by various federal, state and local agencies as well as those of each foreign country to which we distribute. These governmental authorities may commence regulatory or legal proceedings, which could restrict the permissible scope of our product claims or the ability to manufacture and sell our products in the future. The FDA regulates our products to ensure that the products are not adulterated or misbranded. Failure to comply with FDA requirements may result in, among other things, injunctions, product withdrawals, recalls, product seizures, fines and criminal prosecutions. Our advertising is subject to regulation by the FTC under the FTCA. In recent years the FTC has initiated numerous investigations of dietary supplement and weight loss products and companies. Additionally, some states also permit advertising and labeling laws to be enforced by private attorney generals, who may seek relief for consumers, seek class action certifications, seek class wide damages and product recalls of products sold by us. Any of these types of adverse actions against us by governmental authorities or private litigants could have a material adverse effect on our business, financial condition and results of operations.

Other Risks Factors

WE MAY, IN THE FUTURE, ISSUE ADDITIONAL COMMON SHARES, WHICH WOULD REDUCE INVESTORS’ PERCENT OF OWNERSHIP AND MAY DILUTE OUR SHARE VALUE.

Our Articles of Incorporation authorize the issuance of 2,500,000,000 shares of common stock, 5,000,000 shares of Series A Convertible Preferred Stock, 51 shares of Series B Preferred Stock, 500 shares of Series C Convertible Preferred Stock. The Company currently has 9,999,449 shares of blank-check preferred stock authorized but undesignated. The future issuance of common stock may result in substantial dilution in the percentage of our common stock held by our then existing shareholders. We may value any common stock issued in the future on an arbitrary basis. The issuance of common stock for future services or acquisitions or other corporate actions may have the effect of diluting the value of the shares held by our investors, and might have an adverse effect on any trading market for our common stock.

OUR COMMON STOCK IS QUOTED ON THE OTCBB, WHICH MAY HAVE AN UNFAVORABLE IMPACT ON OUR STOCK PRICE AND LIQUIDITY.

Our common stock is quoted on the OTCBB. The OTCBB is a significantly more limited market than the New York Stock Exchange or NASDAQ system. The quotation of our shares on the OTCBB may result in a less liquid market available for existing and potential stockholders to trade shares of our common stock, could depress the trading price of our common stock and could have a long-term adverse impact on our ability to raise capital in the future.

OUR COMMON SHARES ARE SUBJECT TO THE "PENNY STOCK" RULES OF THE SEC AND THE TRADING MARKET IN OUR SECURITIES IS LIMITED, WHICH MAKES TRANSACTIONS IN OUR STOCK CUMBERSOME AND MAY REDUCE THE VALUE OF AN INVESTMENT IN OUR STOCK.

The Securities and Exchange Commission has adopted Rule 15g-9 which establishes the definition of a "penny stock," for the purposes relevant to us, as any equity security that has a market price of less than $5.00 per share or with an exercise price of less than $5.00 per share, subject to certain exceptions.

For any transaction involving a penny stock, unless exempt, the rules require:

(a) that a broker or dealer approve a person's account for transactions in penny stocks; and

(b) the broker or dealer receive from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased.

In order to approve a person's account for transactions in penny stocks, the broker or dealer must: (a) obtain financial information and investment experience objectives of the person; and (b) make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks.

The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prescribed by the Commission relating to the penny stock market, which, in highlight form: (a) sets forth the basis on which the broker or dealer made the suitability determination, and (b) that the broker or dealer received a signed, written agreement from the investor prior to the transaction. Generally, brokers may be less willing to execute transactions in securities subject to the "penny stock" rules. This may make it more difficult for investors to dispose of our Common shares and cause a decline in the market value of our stock.

Disclosure also has to be made about the risks of investing in penny stocks in both public offerings and in secondary trading and about the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and the rights and remedies available to an investor in cases of fraud in penny stock transactions. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

LIABILITY OF DIRECTORS FOR BREACH OF DUTY OF CARE IS LIMITED.

According to Nevada law (NRS 78.138(7)), all Nevada corporations limit the liability of directors and officers, including acts not in good faith. Our stockholders' ability to recover damages for fiduciary breaches may be reduced by this statute. In addition, we are obligated to indemnify our directors and officers regarding stockholder suits which they successfully defend (NRS 78.7502).

BECAUSE WE DO NOT INTEND TO PAY ANY CASH DIVIDENDS ON OUR COMMON STOCK, OUR STOCKHOLDERS WILL NOT BE ABLE TO RECEIVE A RETURN ON THEIR SHARES UNLESS THEY SELL THEM.

We intend to retain any future earnings to finance the development and expansion of our business. We do not anticipate paying any cash dividends on our common stock in the foreseeable future. Unless we pay dividends, our stockholders will not be able to receive a return on their shares unless they sell them. There is no assurance that stockholders will be able to sell shares when desired.

WE WILL INCUR ONGOING COSTS AND EXPENSES FOR SEC REPORTING AND COMPLIANCE, AND WITHOUT REVENUE WE MAY NOT BE ABLE TO REMAIN IN COMPLIANCE WITH THE SEC, MAKING IT DIFFICULT FOR INVESTORS TO SELL THEIR SHARES, IF AT ALL.

To remain eligible for quotation on the OTCBB, issuers must remain current in their filings with the SEC. Market Makers are not permitted to begin quotation of a security whose issuer does not meet this filing requirement. Securities already quoted on the OTCBB that become delinquent in their required filings will be removed following a 30 or 60 day grace period if they do not make their required filing during that time. In order for us to remain in compliance we will require future revenues to cover the cost of these filings, which could comprise a substantial portion of our available cash resources. If we are unable to generate sufficient revenues to remain in compliance it may be difficult for you to resell any shares you may purchase, if at all.

WE MAY ISSUE ADDITIONAL SHARES OF PREFERRED STOCK IN THE FUTURE THAT MAY ADVERSELY IMPACT YOUR RIGHTS AS HOLDERS OF OUR COMMON STOCK.

Our articles of incorporation authorize us to issue up to issue up to 15,000,000 shares of preferred stock in various classes. To date, the Company has issued 51 shares of Series B preferred stock and 190 shares of Series C preferred stock. The Series C preferred stock is convertible into shares of the Company’s common stock. Our board of directors will have the authority to fix and determine the relative rights and preferences of preferred shares, as well as the authority to issue additional shares, without further stockholder approval. As a result, our board of directors could authorize the issuance of a series of preferred stock that would grant to holders preferred rights to our assets upon liquidation, the right to receive dividends before dividends are declared to holders of our common stock, and the right to the redemption of such preferred shares, together with a premium, prior to the redemption of the common stock. To the extent that we do issue such additional shares of preferred stock, your rights as holders of common stock could be impaired thereby, including, without limitation, dilution of your ownership interests in us. In addition, shares of preferred stock could be issued with terms calculated to delay or prevent a change in control or make removal of management more difficult, which may not be in your interest as a holder of common stock.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

This report and other reports filed by our Company from time to time with the United States Securities and Exchange Commission (collectively the "Filings") contain or may contain forward-looking statements and information that are based upon beliefs of, and information currently available to, our management as well as estimates and assumptions made by our management. Readers are cautioned not to place undue reliance on these forward-looking statements, which are only predictions and speak only as of the date hereof. When used in the filings, the words "anticipate," "believe," "estimate," "expect," "future," "intend," "plan," or the negative of these terms and similar expressions as they relate to us or our management identify forward-looking statements. Such statements reflect our current view with respect to future events and are subject to risks, uncertainties, assumptions, and other factors, including those set forth in the Risk Factors on page 10. Should one or more of these risks or uncertainties materialize, or should the underlying assumptions prove incorrect, actual results may differ significantly from those anticipated, believed, estimated, expected, intended, or planned.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance, or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Our financial statements are prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). These accounting principles require us to make certain estimates, judgments and assumptions. We believe that the estimates, judgments and assumptions upon which we rely are reasonable based upon information available to us at the time that these estimates, judgments and assumptions are made. These estimates, judgments and assumptions can affect the reported amounts of assets and liabilities as of the date of the financial statements as well as the reported amounts of revenues and expenses during the periods presented. Our financial statements would be affected to the extent there are material differences between these estimates and actual results. In many cases, the accounting treatment of a particular transaction is specifically dictated by GAAP and does not require management's judgment in its application. There are also areas in which management's judgment in selecting any available alternative would not produce a materially different result. The following discussion should be read in conjunction with our consolidated financial statements and notes thereto appearing elsewhere in this report.

Results of Operations

For the Year Ended December 31, 2011 Compared to the Year Ended December 31, 2010

Revenues

Net revenues from the sale of products were approximately $21 million for the year ended December 31, 2011, as compared to revenue from the sale of products of approximately $4.0 million for the year ended December 31, 2010. Sales activities during the year ended December 31, 2011, increased due to the increase in advertising and promotion efforts, as well as the change in the Company's manufacturers, which provided more consistent shipments to customers. The increase is also related to the significant capital spent on marketing with distributors and marketing and brand recognition with endorsements and sponsorships.

Cost of Sales

Cost of sales for the year ended December 31, 2011, were approximately $14.5 million or 69% of revenue, as compared to approximately $2.8 million or 69% of revenue for the year ended December 31, 2010. The cost of sales as a percentage of revenues decreased due to the change in manufacturers as we realized savings offered by quantity discounts.

Operating Expenses

Operating expenses for the year ended December 31, 2011, were approximately $22.6 million, as compared to approximately $19.5 million for the year ended December 31, 2010. The approximate $3.1 million increase is primarily due to an increase in adverting and promotion of approximately $2.2 million, an increase in stock based compensation – of approximately $3.7 million, an increase in depreciation expense of approximately $0.2 million and an increase in travel, meetings and entertainment of approximately $0.3 million, offset by a decrease in investment advisory services of approximately $2.4 million and a decrease in research and development costs of approximately $1.2 million.

Operating Loss

Operating loss for the year ended December 31, 2011 was approximately $16.2 million, as compared to approximately $18.3 million for the year ended December 31, 2010.

Interest Expense

Interest expense for the year ended December 31, 2011, was approximately $3.7 million, as compared to approximately $0.5 million for the year ended December 31, 2010. The increase in interest expense primarily relates to amortization of the debt discounts and debit issue costs of $3.5 million and interest charges incurred on our portfolio of debt instruments of approximately $0.2 million.

Other Expenses

Other expenses for the year ended December 31, 2011, were approximately $7 million, as compared to approximately $1.3 million for the year ended December 31, 2010. The $5.7 million increase in other expenses is primarily due to an increase in derivative expense of approximately $4.7 million, an increase in interest expense of approximately $3.2 million and increases in the losses on settlement of accounts payable of approximately $3.4 million, offset by changes in the fair value of derivative liabilities of approximately $5.3 million and licensing income of approximately $0.2 million.

Net Loss

Net loss for the year ended December 31, 2011, was approximately $23.3 million, or loss per share of $0.08, as compared to the net loss of approximately $19.6 million or loss per share of $0.48 for the year ended December 31, 2010.

Liquidity and Capital Resources

The following table summarizes total current assets, liabilities and working capital at December 31, 2011, compared to December 31, 2010.

	December 31, 2011	December 31, 2010	Increase/Decrease
Current Assets	$ 4,016,833	$ 2,494,441	$ 1,522,392
Current Liabilities	$ 17,710,100	$ 4,215,648	$ 13,494,452
Working Capital (Deficit)	$ (13,693,267)	$ (1,721,207)	$ (11,972,060)

Our primary source of operating cash has been through the sale of equity and through the issuance of convertible secured promissory notes and other short term debt as discussed below.

At December 31, 2011, the Company had cash of $659,764 and working capital deficit of approximately $13.7 million, compared to cash of $43,700 and a working capital deficit of approximately $1.7 million at December 31, 2010. The working capital deficit increase of approximately $12.0 million is primarily due to an increase in accounts payable and accrued liabilities of approximately $6.1 million, an increase in derivative liabilities of approximately $6.4 million and an increase of debt, net of discounts of approximately $1 million, offset by an increase to prepaid sponsorships of approximately $0.2 million and an increase in accounts receivable of approximately $2.1 million.

Cash used in operating activities was approximately $5.8 million for the year ended December 31, 2011, as compared to cash used in operating activities of approximately $3.8 million for the year ended December 31, 2010. The increase in cash used in operating activities of approximately $2.0 million for the year ended December 31, 2011, compared to the year ended December 31, 2010, was primarily due to an increase of accounts receivable of approximately $2.1 million, an increase in the change in fair value of derivative liabilities of approximately $5.3 million, a decrease of stock issued for services of approximately $7.6 million, offset by an increase in warrants issued for services of approximately $2.0 million, an increase in the amortization of debt discount and debt issue costs of approximately $3.0 million, an increase in the loss on settlement of accounts payable of approximately $1.7 million, the increase on the loss on conversion of debt of approximately $1.7 million and the increase in derivative expense of approximately $4.7 million.

Cash used in investing activities was $831,511 for the year ended December 31, 2011, as compared to cash used in investing activities of $117,303 for the year ended December 31, 2010. The increase in cash used in investing activities represents purchases of property and equipment, and the build out of our gym facility. We also maintain a website (www.musclepharm.com), designed for customers and investors. Future investments in property and equipment, as well as further development of our Internet presence will largely depend on available capital resources.

Cash flows provided by financing activities were approximately $7.2 million for the year ended December 31, 2011, as compared to cash flows provided by financing activities of approximately $4.0 million for the year ended December 31, 2010. The approximately $3.3 million increase is due to the $4.5 million increase in proceeds from issuance of debt, offset by decreases in the proceeds from issuance of debt – related party of approximately $0.4 million, the decrease in the proceeds from the issuance of common stock and warrants – net of recapitalization payment of $0.6 million and the increase in the cash paid for debt issue costs of approximately $0.3 million.

Off-Balance Sheet Arrangements

Other than the operating leases, as of December 31, 2011, MusclePharm did not have any off-balance sheet arrangements.

Critical Accounting Policies

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate could change in the near term due to one or more future non-conforming events. Accordingly, the actual results could differ significantly from estimates.

Accounts Receivable

MusclePharm performs ongoing evaluations of its customer's financial condition and generally does not require collateral. Management reviews accounts receivable periodically and reduces the carrying amount by a valuation allowance that reflects management's best estimate of amounts that may not be collectible. Allowances, if any, for uncollectible accounts receivable are determined based upon information available and historical experience.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation. Included in property and equipment are website development costs which represent capitalized costs of design, configuration, coding, installation, and testing of the Company's website. Depreciation is computed on the straight-line method over the asset's useful lives which range from three to five years. Maintenance and repairs are charged to expense as incurred; improvements and betterments are capitalized.

Long-Lived Assets

MusclePharm's primary long-lived assets are property and equipment. The Company assesses the recoverability of its long-lived assets whenever events and circumstances indicate the carrying value of an asset or asset group may not be recoverable from estimated future cash flows expected to result from its use and eventual disposition.

Fair Value Measurements

The Company follows guidance for fair value measurements which defines fair value, establishes a framework for using fair value to measure financial assets and liabilities on a recurring basis, and expands disclosures about fair value measurements. The Company also applies the guidance to non-financial assets and liabilities measured at fair value on a non-recurring basis, which includes goodwill and intangible assets. The guidance establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions of what market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the reliability of the inputs as follows:

- Level 1 – Valuation is based upon unadjusted quoted market prices for identical assets or liabilities in active markets that the Company has the ability to access.

- Level 2 – Valuation is based upon quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or valuations based on models where the significant inputs are observable in the market.

- Level 3 – Valuation is based on models where significant inputs are not observable. The unobservable inputs reflect the Company's own assumptions about the inputs that market participants would use.

Financial instruments consist of cash, accounts receivable, prepaid expenses, accounts payable and accrued expenses. The carrying amount of these financial instruments approximates fair value due to their short-term nature or the current rates at which the Company could borrow funds with similar remaining maturities. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial statements.

Derivative Financial Instruments

Fair value accounting requires bifurcation of embedded derivative instruments such as conversion features in convertible debt or equity instruments, and measurement of their fair value for accounting purposes. In determining the appropriate fair value, the Company uses the Black-Scholes option-pricing model. In assessing the convertible debt instruments, management determines if the convertible debt host instrument is conventional convertible debt and further if there is a beneficial conversion feature requiring measurement. If the instrument is not considered conventional convertible debt, the Company will continue its evaluation process of these instruments as derivative financial instruments.

Revenue Recognition

The Company records revenue when all of the following have occurred: (1) persuasive evidence of an arrangement exists, (2) product has been shipped or delivered by the third party manufacturer, (3) the sales price to the customer is fixed or determinable, and (4) collectability is reasonably assured.

Depending on individual customer agreements, sales are recognized either upon shipment of products to customers or upon delivery. For one of our largest customers, which represent 15% of total revenue, revenue is recognized upon delivery. For all other customers, revenue is recognized upon shipment of the product. The Company records sales allowances and discounts as a direct reduction of sales. The Company recorded discounts of $359,182 and $152,664 for the years ended December 31, 2011 and 2010, respectively.

The Company grants volume incentive rebates to certain customers based on contractually agreed percentages ranging from 2.5% - 5.5% as a percentage of sales once a certain threshold has been met. The credits are recorded as a direct reduction to sales. Total volume incentive rebates granted for the years ended December 31, 2011 and 2010 were approximately $500,000 and $0, respectively.

The Company has an informal 7-day right of return for products. There were nominal returns in 2011 and 2010.

During the years ended December 31, 2011 and 2010, the Company had the following concentrations of revenues with customers:

Customer	2011	2010
A	40%	42%
B	15%	9%
C	-%	12%

The Company does not manufacture or physically hold any inventory. Inventory is held and distributed by the Company's third party manufacturer.

Sponsorship and Endorsement Agreements

As a component of its marketing strategy, the Company enters into sponsorship and endorsement agreements with prominent athletes, trainers, and other high profile individuals that provide the Company ongoing sources of exposure to its products. The agreements sometimes specify certain contingencies that must be met to receive payments; others may require regular or periodic payments with no specified service or events that trigger payments under an agreement, or a combination of both. Agreements that are contingent upon the successful completion of an event prior to payment are considered unearned until the completion of the triggering event, and as such, no expense or liability is recorded until the successful completion of the triggering event. Where agreements are based on time and not on specific triggering events, the services are considered to be earned ratably over the period of the agreement, and as such expenses and liabilities are recorded ratably over the term of the agreement.

On September 1, 2011, the Company signed a sponsorship agreement with Zuffa Marketing, LLC, the owner of Ultimate Fighting Championship™ ("UFC™"). The Company is one of five primary sponsors with Dodge Trucks, Harley-Davidson, Bud Light and Tapout. The Company is the "Official Supplement Company of the UFC." The Company receives brand placement at UFC ™ events. Our agreement includes prominent logo placement on the mat, and our branding can be seen on Fox and pay-per-view worldwide.

Stock-Based Compensation

MusclePharm measures and recognizes compensation expense for all share-based awards made to employees and directors, including stock options and stock purchase warrants, based on estimated fair values. The Company must estimate the fair value of share-based awards on the grant date using an option pricing model. MusclePharm values share-based awards using the Black-Scholes option pricing model. The Black-Scholes model is highly complex and dependent on key estimates by management.

Recent Accounting Pronouncements

In May 2011, the FASB issued ASU No. 2011-04, which amended ASC Topic 820 to achieve common fair value measurements and disclosure requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS"). The amendments in ASU No. 2011-05 result in common fair value measurement and disclosure requirements in U.S. GAAP and IFRSs. Consequently, the amendments change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. This amendment is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The Company does not anticipate this amendment will have a material impact on its financial statements.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

Not applicable.

Item 8. Financial Statements and Supplementary Data.

Our financial statements are contained in pages F-1 through F-23, which appear at the end of this Annual Report.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

Not applicable.

Item 9A. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in the reports we file pursuant to the Securities Exchange Act of 1934, as amended (the "Exchange Act") are recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and that such information is accumulated and communicated to our Principal Executive Officer ("PEO") and Principal Financial Officer ("PFO"), to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can only provide a reasonable assurance of achieving the desired control objectives, and in reaching a reasonable level of assurance, management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Management designed the disclosure controls and procedures to provide reasonable assurance of achieving the desired control objectives.

We carried out an evaluation, under the supervision and with the participation of our management, including our PEO and PFO, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Annual Report. Based upon that evaluation, the PEO and PFO concluded that the Company's disclosure controls and procedures were ineffective.

(b) Management's Assessment of Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in the Exchange Act Rules 13a-15(f). A system of internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Under the supervision and with the participation of management, including the principal executive officer and the principal financial officer, the Company's management has evaluated the effectiveness of its internal control over financial reporting as of December 31, 2010, based on the criteria established in a report entitled "Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission" and the interpretive guidance issued by the Commission in Release No. 34-55929. Based on this evaluation, the Company's management has evaluated and concluded that the Company's internal control over financial reporting was ineffective as of December 31, 2011, and identified the following material weaknesses:

- There is a lack of accounting personnel with the requisite knowledge of Generally Accepted Accounting Principles in the US ("GAAP") and the financial reporting requirements of the U.S. Securities and Exchange Commission.

- There are insufficient written policies and procedures to insure the correct application of accounting and financial reporting with respect to the current requirements of GAAP and SEC disclosure requirements.

- There is a lack of segregation of duties, in that we only had one person performing all accounting-related duties.

Notwithstanding the existence of these material weaknesses in our internal control over financial reporting, our management believes that the consolidated financial statements included in its reports fairly present in all material respects the Company's financial condition, results of operations and cash flows for the periods presented.

The Company will continue its assessment on a quarterly basis. We plan to hire personnel and resources to address these material weaknesses. We believe these issues can be solved with hiring in-house accounting support and plan to do so as soon as we have funds available for this.

This annual report does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting. The Company's registered public accounting firm was not required to issue an attestation on its internal controls over financial reporting pursuant to temporary rules of the Securities and Exchange Commission. The Company will continue to evaluate the effectiveness of internal controls and procedures on an on-going basis.

(c) Changes in Internal Control over Financial Reporting

There have been no changes in our internal controls over financial reporting (as such term is defined in Rule 13a-15(f) and 15d-15(f) under the Securities Exchange Act) during the year ended December 31, 2011, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

As of December 31, 2011, the board of directors determined that the Company does not currently have any directors that are considered "independent" under the aforementioned standards.

Committees of the Board of Directors

Concurrent with having sufficient members and resources, the board of directors intends to establish an audit committee and a compensation committee. The audit committee will review the results and scope of the audit and other services provided by the independent auditors and review and evaluate the system of internal controls. The compensation committee will review and recommend compensation arrangements for the officers and employees. No final determination has yet been made as to the memberships of these committees or when we will have sufficient members to establish committees. We believe that we will need a minimum of three (3) independent directors to have effective committee systems.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of:
MusclePharm Corporation

We have audited the accompanying consolidated balance sheets of MusclePharm Corporation and Subsidiary as of December 31, 2011 and 2010, and the related consolidated statements of operations, stockholders' deficit and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of MusclePharm Corporation and Subsidiary as of December 31, 2011 and 2010, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has a net loss of $23,280,950 and net cash used in operations of $5,801,761 for the year ended December 31, 2011; and has a working capital deficit of $13,693,267, and a stockholders' deficit of $12,971,212 at December 31, 2011. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management's plan in regards to these matters is also described in Note 2.

Consolidated Notes to Financial Statements
December 31, 2011 and 2010

Note 1 Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations

MusclePharm Corporation (the "Company", "We", "Our" or "MP"), was organized as a limited liability company in the State of Colorado on April 22, 2008. On February 18, 2010, the Company executed a reverse recapitalization with Tone in Twenty, Inc. and changed its name to MP (See Note 3).

The Company markets branded sports nutrition products.

Risks and Uncertainties

The Company operates in an industry that is subject to rapid change and intense competition. The Company's operations will be subject to significant risk and uncertainties including financial, operational, technological, regulatory and other risks, including the potential risk of business failure.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate could change in the near term due to one or more future non-conforming events. Accordingly, the actual results could differ significantly from estimates.

Principles of Consolidation

All inter-company accounts and transactions have been eliminated in consolidation.

Cash and Cash Equivalents

The Company considers all highly liquid instruments purchased with an original maturity of three months or less and money market accounts to be cash equivalents. At December 31, 2011 and 2010, the Company had no cash equivalents.

The Company minimizes its credit risk associated with cash by periodically evaluating the credit quality of its primary financial institution. The balance at times may exceed federally insured limits. At December 31, 2011 there was one account that had a balance that exceeded the federally insured limit by approximately $378,000. In 2010, there were no balances that exceeded the federally insured limit.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable represent trade obligations from customers that are subject to normal trade collection terms. The Company periodically evaluates the collectability of its accounts receivable and considers the need to establish an allowance for doubtful accounts based upon historical collection experience and specific customer information. Accordingly, the actual amounts could vary from the recorded allowances.

The Company does not charge interest on past due receivables. Receivables are determined to be past due based on the payment terms of the original invoices.

Accounts receivable at December 31, 2011 and 2010 were as follows:

	2011	2010
Accounts receivable	$ 2,766,776	$ 542,863
Less: allowance for doubtful accounts	(197,684)	(116,102)
Accounts receivable – net	$ 2,569,092	$ 426,761

As of December 31, 2011 and 2010, the Company had the following concentrations of accounts receivable with customers:

Customer	2011	2010
A	36%	24%
B	12%	2%
C	10%	-%
D	7%	40%
E	5%	11%

Property and Equipment

Property and equipment are stated at cost and depreciated to their estimated residual value over their estimated useful lives. When assets are retired or otherwise disposed of, the assets and related accumulated depreciation are relieved from the accounts and the resulting gains or losses are included in operating income in the statements of operations. Repairs and maintenance costs are expensed as incurred. Depreciation is provided using the straight-line method for all property and equipment.

Website Development Costs

Costs incurred in the planning stage of a website are expensed, while costs incurred in the development stage are capitalized and amortized over the estimated useful life of the asset.

Long-Lived Assets

The Company reviews long-lived assets for impairment whenever events or changes in circumstances, such as service discontinuance or technological obsolescence, indicate that the carrying amount of the long-lived asset may not be recoverable. When such events occur, the Company compares the carrying amount of the asset to the undiscounted expected future cash flows related to the asset. If the comparison indicates that impairment is present, the amount of impairment is calculated as the difference between the excess of the carrying amount over the fair value of the asset. If a readily determinable market price does not exist, fair value is estimated using discounted expected cash flows attributable to the asset.

Fair Value of Financial Instruments

The Company measures assets and liabilities at fair value based on an expected exit price as defined by the authoritative guidance on fair value measurements, which represents the amount that would be received on the sale of an asset or paid to transfer a liability, as the case may be, in an orderly transaction between market participants. As such, fair value may be based on assumptions that market participants would use in pricing an asset or liability. The authoritative guidance on fair value measurements establishes a consistent framework for measuring fair value on either a recurring or nonrecurring basis whereby inputs, used in valuation techniques, are assigned a hierarchical level.

The following are the hierarchical levels of inputs to measure fair value:

- Level 1: Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2: Inputs reflect quoted prices for identical assets or liabilities in markets that are not active; quoted prices for similar assets or liabilities in active markets; inputs other than quoted prices that are observable for the assets or liabilities; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3: Unobservable inputs reflecting the Company's assumptions incorporated in valuation techniques used to determine fair value. These assumptions are required to be consistent with market participant assumptions that are reasonably available.

The following are the major categories of liabilities measured at fair value on a recurring basis as of December 31, 2011 and 2010, using quoted prices in active markets for identical liabilities (Level 1); significant other observable inputs (Level 2); and significant unobservable inputs (Level 3):

		2011	2010
Derivative liabilities	Level 2	$ 7,061,238	$ 622,944

The Company's financial instruments consisted primarily of accounts receivable, prepaids, accounts payable and accrued liabilities, derivative liabilities and debt. The carrying amounts of the Company's financial instruments generally approximated their fair values as of December 31, 2011 and 2010, respectively, due to the short-term nature of these instruments.

Revenue Recognition

The Company records revenue when all of the following have occurred; (1) persuasive evidence of an arrangement exists, (2) product has been shipped or delivered by the third party manufacturer, (3) the sales price to the customer is fixed or determinable, and (4) collectability is reasonably assured.

Depending on individual customer agreements, sales are recognized either upon shipment of products to customers or upon delivery. For one of our largest customers, which represent 15% of total revenue, revenue is recognized upon delivery. For all other customers, revenue is recognized upon shipment of the product. The Company records sales allowances and discounts as a direct reduction of sales. The Company recorded discounts of $359,182 and $152,664 for the years ended December 31, 2011 and 2010, respectively.

The Company grants volume incentive rebates to certain customers based on contractually agreed percentages ranging from 2.5% - 5.5% as a percentage of sales once a certain threshold has been met. The credits are recorded as a direct reduction to sales. Total volume incentive rebates granted for the years ended December 31, 2011 and 2010 were approximately $500,000 and $0, respectively.

The Company has an informal 7-day right of return for products. There were nominal returns in 2011 and 2010.

During the years ended December 31, 2011 and 2010, the Company had the following concentrations of revenues with customers:

Customer	2011	2010
A	40%	42%
B	15%	9%
C	-%	12%

The Company does not manufacture or physically hold any inventory. Inventory is held and distributed by the Company's third party manufacturer.

Licensing Income and Royalty Revenue

On May 5, 2011, the Company granted an exclusive indefinite term license to a third party for $250,000. The licensee may market, manufacture, design and sell the Company's existing apparel line. The licensee will pay the Company a 10% net royalty based on its net income at the end of each fiscal year. To date, no royalty revenue has been earned.

Cost of Sales

Cost of sales represents costs directly related to the production and third party manufacturing of the Company's products.

Shipping and Handling

Product sold is typically shipped directly to the customer from the manufacturer. Any freight billed to customers is offset against shipping costs and included in cost of sales.

Freight billed to customers for the years ended December 31, 2011 and 2010 was $309,690 and $71,983, respectively.

Advertising

The Company expenses advertising costs when incurred.

Advertising for the years ended December 31, 2011 and 2010 are as follows:

2011	2010
$ 9,241,741	$ 7,084,955

Income Taxes

Through February 18, 2010, the Company was taxed as a pass-through entity (LLC) under the Internal Revenue Code and was not subject to federal and state income taxes; accordingly, no provision was made. The financial statements reflect the LLC's transactions without adjustment, if any, required for income tax purposes for the period ended February 18, 2010. In computing the expected tax benefit, the Company reflected a net loss of $23,280,950 in the year ended December 31, 2011 and $19,169,454 for the period from February 18, 2010 to December 31, 2010.

In 2011, and the period from February 18, 2010 through December 31, 2010, income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, operating loss and tax credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Beginning with the adoption of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* , (included in FASB ASC Subtopic 740-10, *Income Taxes — Overall*), the Company recognizes the effect of income tax positions only if those positions are more likely than not to be sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely to be realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

The Company records interest and penalties related to unrecognized tax benefits in income tax expense. There were none for the years ended December 31, 2011 and 2010.

Beneficial Conversion Feature

For conventional convertible debt where the rate of conversion is below market value, the Company records a "beneficial conversion feature" ("BCF") and related debt discount.

When the Company records a BCF, the relative fair value of the BCF is recorded as a debt discount against the face amount of the respective debt instrument. The discount is amortized to interest expense over the life of the debt.

Derivative Liabilities

Fair value accounting requires bifurcation of embedded derivative instruments, such as ratchet provisions or conversion features in convertible debt or equity instruments, and measurement of their fair value. In determining the appropriate fair value, the Company uses the Black-Scholes option-pricing model. In assessing the convertible debt instruments, management determines if the convertible debt host instrument is conventional convertible debt and further if there is a beneficial conversion feature requiring measurement. If the instrument is not considered conventional convertible debt, the Company will continue its evaluation process of these instruments as derivative financial instruments.

Once derivative liabilities are determined, they are adjusted to reflect fair value at the end of each reporting period. Any increase or decrease in the fair value is recorded in results of operations as an adjustment to fair value of derivatives. In addition, the fair value of freestanding derivative instruments such as warrants, are also valued using the Black-Scholes option-pricing model.

Debt Issue Costs and Debt Discount

The Company may pay debt issue costs, and record debt discounts in connection with raising funds through the issuance of convertible debt. These costs are amortized to interest expense over the life of the debt. If a conversion of the underlying debt occurs, a proportionate share of the unamortized amounts is immediately expensed.

Original Issue Discount

For certain convertible debt issued, the Company provides the debt holder with an original issue discount. The original issue discount is recorded to debt discount, reducing the face amount of the note and is amortized to interest expense over the life of the debt.

Share-based payments

The Company has incentive plans that reward employees with stock options, warrants, restricted stock and stock appreciation rights. The amount of compensation cost for these share-based awards is measured based on the fair value of the awards, as of the date that the share-based awards are issued and adjusted to the estimated number of awards that are expected to vest.

Fair value of stock options, warrants, and stock appreciation rights, is generally determined using a Black-Scholes option pricing model, which incorporates assumptions about expected volatility, risk free rate, dividend yield, and expected life. Compensation cost for share-based awards is recognized on a straight-line basis over the vesting period.

Net Earnings (Loss) per Share

Net earnings (loss) per share is computed by dividing net income (loss) less preferred dividends for the period by weighted average number of shares of common stock outstanding during each period. Diluted earnings (loss) per share is computed by dividing net income (loss) less preferred dividends by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during the period.

Since the Company reflected a net loss in 2011 and 2010, respectively, the effect of considering any common stock equivalents, if exercisable, would have been anti-dilutive. A separate computation of diluted earnings (loss) per share is not presented.

The Company has the following common stock equivalents at December 31, 2011 and 2010:

	2011	2010
Stock options (exercise price - $0.50/share)	1,617,500	2,767,500
Warrants (exercise price $0.015- $1.50/share)	61,696,327	750,000
Convertible preferred series C shares (exercise price $0.01/share)	19,000	-
Convertible debt (exercise price $0.002- $0.02/share)	448,592,711	11,197,139
Total common stock equivalents	511,925,538	14,714,639

In the above table, some of the outstanding convertible debt from 2011 and 2010 contains ratchet provisions that would cause variability in the exercise price at the balance sheet date. As a result, common stock equivalents could change at each reporting period.

Reclassification

The Company has reclassified certain prior period amounts to conform to the current period presentation. These reclassifications had no effect on the financial position, results of operations or cash flows for the periods presented.

Recent Accounting Pronouncements

In May 2011, the FASB issued ASU No. 2011-04, which amended ASC Topic 820 to achieve common fair value measurements and disclosure requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS"). The amendments in ASU No. 2011-05 result in common fair value measurement and disclosure requirements in U.S. GAAP and IFRSs. Consequently, the amendments change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. This amendment is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The Company does not anticipate this amendment will have a material impact on its financial statements.

Note 2 Going Concern

As reflected in the accompanying financial statements, the Company had a net loss of $23,280,950 and net cash used in operations of $5,801,761 for the year ended December 31, 2011; and a working capital deficit and stockholders' deficit of $13,693,267 and $12,971,212, respectively, at December 31, 2011.These factors raise substantial doubt about the Company's ability to continue as a going concern.

The ability of the Company to continue its operations is dependent on Management's plans, which include the raising of capital through debt and/or equity markets with some additional funding from other traditional financing sources, including term notes, until such time that funds provided by operations are sufficient to fund working capital requirements. The Company may need to incur liabilities with certain related parties to sustain the Company's existence.

The Company will require additional funding to finance the growth of its current and expected future operations as well as to achieve its strategic objectives. The Company believes its current available cash along with anticipated revenues may be insufficient to meet its cash needs for the near future. There can be no assurance that financing will be available in amounts or terms acceptable to the Company, if at all.

In response to these problems, management has taken the following actions:

- seeking additional third party debt and/or equity financing,
- continue with the implementation of the business plan,
- generate new sales from international customers; and
- allocate sufficient resources to continue with advertising and marketing efforts

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

Note 3 Reverse Recapitalization

On February 18, 2010, the Company merged with Tone in Twenty, Inc. ("TIT"), a then public shell corporation, and MP became the surviving corporation, in a transaction treated as a reverse recapitalization. TIT did not have any operations and majority-voting control was transferred to MP.

In the recapitalization, MP acquired 26,000,000 shares of common stock from TIT in exchange for all member units in MP. Prior to the transaction, the Company paid approximately $25,000 to a former executive of TIT to acquire 366,662 of the 437,500 shares issued and outstanding, these shares were then immediately cancelled and retired. The remaining 70,838 shares were held by the selling stockholders as a deemed issuance in the recapitalization. After the transaction, there were 26,070,838 shares issued and outstanding. The transaction resulted in MP acquiring 99.7% control.

The transaction also requires a recapitalization of MP. Since MP acquired a controlling voting interest, it was deemed the accounting acquirer, while TIT was deemed the legal acquirer. The historical financial statements of the Company are those of MP and of the consolidated entities from the date of recapitalization and subsequent.

Since the transaction is considered a reverse recapitalization, the presentation of pro-forma financial information was not required.

The debt holders are entitled, at their option, to convert all or part of the principal and accrued interest into shares of the Company's common stock at conversion prices and terms discussed above. The Company classifies embedded conversion features in these notes as a derivative liability due to management's assessment that the Company may not have sufficient authorized number of shares of common stock required to net-share settle or due to the existence of a ratchet due to an anti-dilution provision. See Note 6 regarding accounting for derivative liabilities.

During the year ended December 31, 2011, the Company converted debt and accrued interest, totaling $5,126,809 into 294,339,121 shares of common stock resulting in a loss on conversion of $1,739,329.

Convertible debt consisted of the following activity and terms:

During the year ended December 31, 2011, $585,000 of convertible notes matured without conversion. These notes became demand loans and were reclassified as unsecured debt. Derivative liabilities associated with these notes were eliminated given the expiration of the embedded conversion option.

Note 6 Derivative Liabilities

The Company identified conversion features embedded within convertible debt, warrants and series A, preferred stock issued in 2011 and 2010 (see Notes 5 and 9). The Company has determined that the features associated with the embedded conversion option should be accounted for at fair value as a derivative liability as the Company could not determine if a sufficient number of shares would be available to settle all transactions. Additionally, at one point during 2011, the Company had received conversion notices from investors for which sufficient authorized shares were not available.

As a result of the application of ASC No. 815, the fair value of the conversion feature is summarized as follow:

Derivative liability - December 31, 2009	**$**	**-**
Fair value at the commitment date for convertible instruments		473,638
Fair value mark to market adjustment		149,306
Derivative liability - December 31, 2010		**622,944**
Fair value at the commitment date for convertible instruments		6,590,351
Fair value at the commitment date for warrants issued		5,650,576
Fair value at the commitment date for Series A, Preferred Stock issued		293
Fair value mark to market adjustment for convertible instruments		(2,293,164)
Fair value mark to market adjustment for warrants		(2,868,818)
Fair value mark to market adjustment for Series A, Preferred Stock issued		(118)
Reclassification to additional paid in capital for financial instruments that ceased to be a derivative liability		(640,826)
Derivative liability - December 31, 2011	**$**	**7,061,238**

The Company recorded the debt discount to the extent of the gross proceeds raised, and expensed immediately the remaining value of the derivative as it exceeded the gross proceeds of the note. The Company recorded a derivative expense of $4,777,654 and $93,638 for 2011 and 2010 respectively.

The fair value at the commitment and re-measurement dates for the Company's derivative liabilities were based upon the following management assumptions as of December 31, 2011:

	Commitment Date	Re-measurement Date
Expected dividends	0%	0%
Expected volatility	150% -226 %	150% -226 %
Expected term:	0.02 – 5 years	0.02 – 5 years
Risk free interest rate	0.06% - 2.76 %	0.09% - 0.31 %

The fair value at the commitment and re-measurement dates for the Company's derivative liabilities were based upon the following management assumptions as of December 31, 2010:

	Commitment Date	Re-measurement Date
Expected dividends	0%	0%
Expected volatility	150%	150%
Expected term:	0.75 – 3 years	0.37 – 2.92 years
Risk free interest rate	0.18% - 2.76 %	0.19%

Note 7 Income Taxes

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due. Deferred taxes relate to differences between the basis of assets and liabilities for financial and income tax reporting which will be either taxable or deductible when the assets or liabilities are recovered or settled.

At December 31, 2011, the Company has a net operating loss carry-forward of approximately $16,355,000 available to offset future taxable income expiring through 2031. Utilization of future net operating losses may be limited due to potential ownership changes under Section 382 of the Internal Revenue Code.

The valuation allowance at December 31, 2010 was $ 2,495,000. The net change in valuation allowance during the year ended December 31, 2011 was an increase of approximately $6,075,000. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on consideration of these items, management has determined that enough uncertainty exists relative to the realization of the deferred income tax asset balances to warrant the application of a full valuation allowance as of December 31, 2011.

The effects of temporary differences that gave rise to significant portions of deferred tax assets at December 31, 2011 and 2010 are approximately as follows:

	December 31, 2011	December 31, 2010
Net operating loss carry forward	$ 6,061,000	$ 1,986,000
Amortization of debt discount and debt issue costs	1,465,000	465,000
Stock options and warrants	971,000	0
Bad debt	73,000	44,000
Valuation allowance	(8,570,000)	(2,495,000)
Net deferred tax asset	$ -	$ -

There was no income tax expense for the year ended December 31, 2011 and 2010 due to the Company's net losses.

The Company's tax expense differs from the "expected" tax expense for the years ended December 31, 2011 and 2010, (computed by applying the Federal Corporate tax rate of 34% to loss before taxes and 4.63% for Colorado State Corporate Taxes, the blended rate used was 37.1%), are approximately as follows:

	December 31, 2011	December 31, 2010
Federal tax benefit at statutory rate	$ (7,916,000)	$ (6,216,000)
State tax benefit – net of federal tax effect	(501,000)	(888,000)
Derivative expense	1,625,000	35,000
Change in fair value of derivative liability	(1,755,000)	55,000
Loss on settlement of accounts payable	1,313,000	161,000
Non-deductible stock compensation	1,091,000	4,354,000
Other non-deductible expenses	68,000	4,000
Change in valuation allowance	6,075,000	2,495,000
Income tax benefit	$ -	$ -

Note 8 Commitments, Contingencies and other matters

(A) Operating Lease

In August 2010, the Company leased office space under a non-cancelable operating lease, expiring in December 2015.

Future minimum annual rental payments are approximately as follows:

Year Ended December 31,

2012	$ 86,000
2013	92,000
2014	98,000
2015	105,000
Total minimum lease payments	$ 381,000

Rent expense for the years ended December 31, 2011 and 2010 was $154,155 and $138,357, respectively.

(B) Factoring Agreement

In April 2010, the Company entered into a factoring agreement and sold its accounts receivable. During 2010, the Company was subject legal proceedings with the factor, as a result of the Company's customers not remitting funds directly to the factor. At December 31, 2010, the Company no longer factored its accounts receivable.

A settlement, of $96,783, was reached. During 2010, the Company repaid $25,000, leaving a balance of $71,783 due to factor. In 2011, the Company paid $10,000.

On February 28, 2011, the remaining $65,930, inclusive of fees and interest, was settled with the issuance of 2,187,666 shares of common stock, having a fair value of $131,206 ($0.06/share), based upon the quoted closing trading price. The Company recorded a loss on settlement of accounts payable $65,330.

(C) Legal Matters

From time to time, the Company may become involved in various lawsuits and legal proceedings, which arise in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise that may harm its business. The Company is party to the following legal matters as of December 31, 2011:

- Plaintiff alleges the Company use of Creatine Nitrate in product infringed on a patent held by the Plaintiff. The Company believes the Plaintiffs case is without merit.

- Plaintiff alleges the Company's use of the tagline "Train like an unchained beast" infringes on their mark "Beast" for dietary supplements. Plaintiff's primary goal is not damages, but rather that the Company cease using the tagline. Settlement discussions are ongoing in this case and the Company intends to defend its position.

- Plaintiff has filed notices of intent to commence litigation on over 200 sports nutrition and dietary supplement companies in the US and Canada, including the Company. Plaintiff alleges violations of California's Proposition 65. The Company considers this case without merit and merely an attempt by a commercial plaintiff to pressure settlements. Plaintiff conveyed a settlement offer in the amount of $121,500 to which the Company has not yet responded. The Company has recorded an accrual in the amount of $121,500 as of December 31, 2011.

- Beginning in October 2009, the Company engaged in various business dealings regarding the manufacturing, sale and distribution of products with Fit Foods Manufacturing, Ltd. and Fit Foods Distribution, Inc. Jointly, "Fit Foods"). MusclePharm and Fit Foods subsequently became involved in a business dispute regarding their respective obligations and filed claims against each other in District Court. The Parties settled their dispute on December 22, 2010. The Company issued 13,987,393 shares of common stock having a fair value of $676,980 ($0.048/share), based upon the quoted closing trading price which settled outstanding accounts payable of $333,666, resulting in a loss on settlement of $343,314 All settlement payments have been made and the case was dismissed on July 1, 2011.

Note 9 Stockholders' Deficit

The Company has three separate series of authorized preferred stock:

(A) Series A, Convertible Preferred Stock

During 2010, the Company issued 16,666,600 shares of common stock in connection with the conversion of 83,333 shares of Series A, convertible preferred stock. This class of stock has the following provisions:

- Non-voting,
- No rights to dividends,
- No liquidation value,
- Convertible into 200 shares of common stock

(B) Series B, Preferred Stock (Related Parties)

In August 2011, the Company issued an aggregate 51 shares of Series B, preferred stock to 2 of its officers and directors. The Company accounted for the share issuance at par value since there was no future economic value that could be associated with the issuance.

This class of stock has the following provisions:

- Voting rights entitling the holders to an aggregate 51% voting control,
- Initially no rights to dividends,
- Stated value of $0.001 per share,

- Liquidation rights entitle an amount equal to the stated value, plus any accrued and unpaid dividends
- As long as any Series C, convertible preferred stock is outstanding, the Company is prohibited from executing various corporate actions with the majority consent of the Series C, convertible preferred stockholders authorization; and
- Convertible at the higher of (a) $0.01 or (b) such price that is a 50% discount to market using the average of the low 2 closing bid prices, 5 days preceding conversion

Due to the existence of an option to convert at a variable amount, the Company has applied ASC No. 815, and treated this series of preferred stock as a derivative liability due to the potential for settlement in a variable quantity of shares. Additionally, the Company computed the fair value of the derivative liability at the commitment date and remeasurement date, which was $293 and $175, respectively, using the black-scholes assumptions below. The Executive shall be entitled to be present and to be represented by counsel at such meeting which shall be conducted according to a procedure deemed equitable by a majority of the directors present. If, at such meeting, it shall be determined that the employment of the Executive had been terminated without proper cause, the provisions of this Agreement shall be reinstated with the same force and effect as if the notice of termination had not been given; and the Executive shall be entitled to receive the compensation and other benefits provided herein for the period from the date of the delivery of the notice of termination through the date of such reinstatement.

(B) If the existence of a disability is in dispute, it shall be resolved by two physicians, one appointed by Executive and one appointed by the Board of Directors of the Company. If the two physicians so selected cannot agree as to whether or not Executive is Disabled as defined in subsection (A) above, the two physicians so selected shall designate a third physician and a majority of the three physicians so selected shall determine whether or not Executive is Disabled.

(C) In the event Executive is Disabled, during the period of such disability he shall continue to receive his base compensation in the amount set forth in Section 3(a) hereof, which base compensation shall be reduced by the amount of all disability benefits he actually receives under any disability insurance program in place with the Company until the first to occur of (1) the cessation of the Disability or (2) the termination of this Agreement by the Company at any time after the Disability Period. During the period of Disability and prior to termination, the Executive shall continue to receive the benefits provided in Section 6 hereof and shall have the right to exercise options to purchase shares of the Company's common stock in accordance with the 2007 Plan.

(D) For the purposes of this Section 7(b), any amounts to be paid to Executive by the Company pursuant to subsection (C) above, shall not be reduced by any disability income insurance proceeds received by him under any disability insurance policies owned or paid for by the Executive.

(E) If the Executive is terminated at the end of the Disability Period, then the Executive shall receive through the end of the Term: (1) his base salary as defined in Section 3(a) hereof; (2) the benefits provided in Section 6 hereof including all accrued but unpaid vacation;; and (3) an additional two weeks' pay of the Executive's then current Base Salary.

(d) Termination by the Executive.

The Executive may elect, by written notice to the Company, such notice to be effective immediately upon receipt by the Company, to terminate his employment hereunder if:

(1) The Company sells all or substantially all of its assets;

(2) The Company merges or consolidates with another business entity in a transaction immediately following which the holders of all of the outstanding shares of the voting capital stock of the Company own less than a majority of the outstanding shares of the voting capital stock of the resulting entity (whether or not the resulting entity is the Company); provided, however, that the Executive shall not be permitted to terminate his employment under this subsection unless he notifies the Company in writing that he does not approve of the directors selected to serve on the Board after the merger or similar transaction described herein;

(3) More than fifty (50%) percent of the outstanding shares of the voting capital stock of the Company are acquired by a person or group (as such terms are used in Section 13(d) of the Securities Exchange Act of 1934, as amended), which person or group includes neither the Executive nor the holders of the majority of the outstanding shares of the voting capital stock of the Company on the date of the Original Agreement; provided, however, that the Executive shall not be permitted to terminate his employment under this subsection unless he notifies the Company in writing that he does not approve of the directors selected to serve on the Board after the merger or similar transaction described herein;

(4) The Company assigns to the Executive duties that are not commensurate with the position for which he is being hired pursuant hereto;

(5) The Company defaults in making any of the payments required under this Agreement and said default continues for a thirty (30) day period after the Executive has given the Company written notice of the payment default.

(e) Resignation. If the Executive voluntarily resigns during the term of this Agreement other than pursuant to Section 7(d) hereof, then all payments and benefits shall cease on the effective date of resignation, provided that under this Agreement the Executive shall be entitled to receive through the date of such resignation: (1) his base salary as defined in Section 3(a) hereof, (2) the benefits provided in Section 6 hereof including all accrued but unpaid vacation;; and (3) an additional two weeks' pay of the Executive's then current Base Salary.

(f) Mitigation. In the event of the termination of this Agreement by the Executive as a result of a material breach by the Company of any of its obligations hereunder, or in the event of the termination of the Executive's employment by the Company in breach of this Agreement, the Executive shall not be required to seek other employment in order to mitigate his damages hereunder.

(e) Independent Covenants. The Company and the Executive agree that the covenants contained in this Section 8 shall each be construed as a separate agreement independent of any of the other terms and conditions of this Agreement, and the existence of any claim by the Executive against the Company, whether predicated on this Agreement or otherwise, shall not constitute a defense by the Executive to the Company's enforcement of any of the covenants of this Section 8.

(A) "Disabled" as used in this Agreement means that, by reason of physical or mental incapacity, Executive shall fail or be unable to substantially perform the customary duties of his employment.

(B) If the existence of a disability is in dispute, it shall be resolved by two physicians, one appointed by Executive and one appointed by the Board of Directors of the Company. If the two physicians so selected cannot agree as to whether or not Executive is Disabled as defined in subsection (A) above, the two physicians so selected shall designate a third physician and a majority of the three physicians so selected shall determine whether or not Executive is Disabled.

(C) In the event Executive is Disabled, during the period of such disability he shall continue to receive his base compensation in the amount set forth in Section 3(a) hereof, which base compensation shall be reduced by the amount of all disability benefits he actually receives under any disability insurance program in place with the Company until the first to occur of (1) the cessation of the Disability or (2) the termination of this Agreement by the Company at any time after the Disability Period. During the period of Disability and prior to termination, the Executive shall continue to receive the benefits provided in Section 6 hereof and shall have the right to exercise options to purchase shares of the Company's common stock in accordance with the 2007 Plan.

(D) For the purposes of this Section 7(b), any amounts to be paid to Executive by the Company pursuant to subsection (C) above, shall not be reduced by any disability income insurance proceeds received by him under any disability insurance policies owned or paid for by the Executive.

(E) If the Executive is terminated at the end of the Disability Period, then the Executive shall receive through the end of the Term: (1) his base salary as defined in Section 3(a) hereof; (2) the benefits provided in Section 6 hereof including all accrued but unpaid vacation;; and (3) an additional two weeks' pay of the Executive's then current Base Salary.

(c) Death. The Company's employment of the Executive shall terminate upon his death and all payments and benefits shall cease upon such date provided, however, that under this Agreement the estate of such Executive shall be entitled to receive through the date of termination (1) his base salary as defined in Section 3(a) hereof, (2) the benefits provided in Section 6 hereof including all accrued but unpaid vacation;; and (3) an additional two weeks' pay of the Executive's then current Base Salary.

(d) Termination by the Executive.

The Executive may elect, by written notice to the Company, such notice to be effective immediately upon receipt by the Company, to terminate his employment hereunder if:

(1) The Company sells all or substantially all of its assets;

(2) The Company merges or consolidates with another business entity in a transaction immediately following which the holders of all of the outstanding shares of the voting capital stock of the Company own less than a majority of the outstanding shares of the voting capital stock of the resulting entity (whether or not the resulting entity is the Company); provided, however, that the Executive shall not be permitted to terminate his employment under this subsection unless he notifies the Company in writing that he does not approve of the directors selected to serve on the Board after the merger or similar transaction described herein;

(3) More than fifty (50%) percent of the outstanding shares of the voting capital stock of the Company are acquired by a person or group (as such terms are used in Section 13(d) of the Securities Exchange Act of 1934, as amended), which person or group includes neither the Executive nor the holders of the majority of the outstanding shares of the voting capital stock of the Company on the date of the Original Agreement; provided, however, that the Executive shall not be permitted to terminate his employment under this subsection unless he notifies the Company in writing that he does not approve of the directors selected to serve on the Board after the merger or similar transaction described herein;

(4) The Company assigns to the Executive duties that are not commensurate with the position for which he is being hired pursuant hereto;

(5) The Company defaults in making any of the payments required under this Agreement and said default continues for a thirty (30) day period after the Executive has given the Company written notice of the payment default.

If the Executive elects to terminate his employment hereunder pursuant to this Section 7(d), then (1) the Company shall continue to pay to the Executive his salary as provided in Section 3(a) hereof through the end of the Term; (2) the Company shall continue to provide to the Executive the benefits provided in Section 6 hereof through the end of the Term; and (3) the Company shall provide Executive an additional two weeks' pay of the Executive's then current Base Salary.

(e) Resignation. If the Executive voluntarily resigns during the term of this Agreement other than pursuant to Section 7(d) hereof, then all payments and benefits shall cease on the effective date of resignation, provided that under this Agreement the Executive shall be entitled to receive through the date of such resignation: (1) his base salary as defined in Section 3(a) hereof, (2) the benefits provided in Section 6 hereof including all accrued but unpaid vacation;; and (3) an additional two weeks' pay of the Executive's then current Base Salary.

(f) Mitigation. In the event of the termination of this Agreement by the Executive as a result of a material breach by the Company of any of its obligations hereunder, or in the event of the termination of the Executive's employment by the Company in breach of this Agreement, the Executive shall not be required to seek other employment in order to mitigate his damages hereunder.

8. CONFIDENTIALITY; RESTRICTIVE COVENANTS; NON COMPETITION

(a) Non-Disclosure of Information. (1) The Executive recognizes and acknowledges that by virtue of his position as a key executive, he will have access to the lists of the Company's referral sources, suppliers, advertisers and customers, financial records and business procedures, sales force and personnel, programs, software, selling practices, plans, special methods and processes for electronic data processing, special techniques for testing commercial and sales materials and products, custom research services in product development, marketing strategy, product manufacturing techniques and formulas, and other unique business information and records (collectively "Proprietary Information"), as same may exist from time to time, and that they are valuable, special and unique assets of the Company's business. The Executive also may develop on behalf of the Company a personal acquaintance with the present and potential future clients and customers of the Company, and the Executive's acquaintance may constitute the Company's sole contact with such clients and customers.

(a)(2) The Executive will not during the Term of his employment, and at any time following the end of the Term of or earlier termination of this Agreement regardless of the reason therefor, disclose trade secrets or other confidential information about the Company, including but not limited to Proprietary Information, to any person, firm, corporation, association or other entity for any reason or any purpose whatsoever or utilize such Proprietary Information for his own benefit or the benefit of any third party; provided, however, that nothing contained herein shall prohibit the Executive from using his personal acquaintance with any clients or customers of the Company at any time in a manner that is not inconsistent with their remaining as clients or customers of the Company.

(a)(3) All equipment, records, files, memoranda, computer print-outs and data, reports, correspondence and the like, relating to the business of the Company which Executive shall use or prepare or come into contact with shall remain the sole property of the Company. The Executive shall immediately turn over to the Company all such material in Executive's possession, custody or control at such time as this Agreement is terminated.

(a)(4) "Proprietary Information" shall not include information that was a matter of public knowledge on the date of this Agreement or subsequently becomes public knowledge other than as a result of having been revealed, disclosed or disseminated by Executive, directly or indirectly, in violation of this Agreement.

(b) Enforcement. In view of the foregoing, the Executive acknowledges and agrees that it is reasonable and necessary for the protection of the good will, business, trade secrets, confidential information and Proprietary Information of the Company that he makes the covenants in this Section 8 and that the Company will suffer irreparable injury if the Executive engages in the conduct prohibited by Section 8 (a) of this Agreement. The Executive agrees that upon a breach, threatened breach or violation by him of any of the foregoing provisions of this Section 8, the Company, in addition to all other remedies it may have including an action at law for damages, shall be entitled as a matter of right to injunctive relief, specific performance or any other form of equitable relief in any court of competent jurisdiction without being required to post bond or other security and without having to prove the inadequacy of the available remedies at law, to enjoin and restrain the Executive and each and every other person, partnership, association, corporation or organization acting in concert with the Executive, from the continuance of any action constituting such breach. The Company shall also be entitled to recover from the Executive all of its reasonable costs incurred in the enforcement of this Section 8 including its reasonable legal fees. The Executive acknowledges that the terms of Section 8(a) are reasonable and enforceable and that, should there be a violation or attempted or threatened violation by the Executive of any of the provisions contained in these subsections, the Company shall be entitled to relief by way of injunction, specific performance or other form of equitable relief. In the event that any of the foregoing covenants in Sections 8 (a) shall be deemed by any court of competent jurisdiction, in any proceedings in which the Company shall be a party, to be unenforceable because of its duration, scope, or area, it shall be deemed to be and shall be amended to conform to the scope, period of time and geographical area which would permit it to be enforced.

(e) Independent Covenants. The Company and the Executive agree that the covenants contained in this Section 8 shall each be construed as a separate agreement independent of any of the other terms and conditions of this Agreement, and the existence of any claim by the Executive against the Company, whether predicated on this Agreement or otherwise, shall not constitute a defense by the Executive to the Company's enforcement of any of the covenants of this Section 8.

(f) Exclusion from Arbitration. The terms and conditions of this Section 8 including the enforcement thereof by the Company are specifically excluded from the arbitration of all other matters under this Agreement as provided in Section 13 hereof.

9. DISCLOSURE AND ASSIGNMENT OF RIGHTS.

All works and writings which relate to the Company's business are works for hire, and any and all copyrights therefor shall be placed in the name of and inure to the benefit of the Company.

The Executive hereby appoints the Company's Chairman as true and lawful attorney in fact with full powers of substitution and delegation to execute acknowledge and deliver any such instruments and assignments, which the Executive shall fail or refuse to execute or deliver.

10. INDEMNIFICATION.

The Company shall indemnify the Executive to the maximum extent permitted under the Nevada Revised Statutes, or any successor thereto, and shall promptly advance any expenses incurred by the Executive prior to the final disposition of the proceeding to which such indemnity relates upon receipt from the Executive of a written undertaking to repay the amount so advanced if it shall be determined ultimately that the Executive is not entitled to indemnity under the standards set forth in the Nevada Revised Statutes or its successor. The Employer shall use commercially reasonable efforts to obtain and maintain throughout the Term of the employment of the Executive hereunder directors' and officers' liability insurance for the benefit of the Executive. The indemnification obligations of the Company under this Section 10 shall survive the termination of the Term or of this Agreement for any reason whatsoever unless the Agreement is terminated for cause.

(a) Applicable Law. This document shall, in all respects, be governed by the laws of the State of Colorado excluding any conflicts of law provisions. The parties acknowledge that substantially all of the negotiations relating to this Agreement were conducted in, and that this Agreement has been executed by both parties in State of Colorado.

In addition, the parties agree that any compensation or right which shall have accrued to the Executive as of the date of any termination of employment or termination hereof shall survive any such termination and shall be paid when due to the extent accrued on the date of such termination.

(c) Assignability. All of the terms and provisions contained herein shall inure to the benefit of and shall be binding upon the parties and their respective heirs, personal representatives, successors and assigns. The obligations of the Executive may not be delegated, except as set forth herein, however, and the Executive may not, without the Company's written consent thereto, assign, transfer, convey, pledge, encumber, hypothecate or otherwise dispose of this Agreement or any interest therein. Any such attempted delegation or disposition shall be null and void and without effect. The Company and the Executive agree that this Agreement and all of the Company's rights and obligations hereunder may be assigned or transferred by the Company to and may be assumed by and become binding upon and may inure to the benefit of any affiliate of or successor to the Company. The term "successor" shall mean, with respect to the Company or any of its subsidiaries, and any other corporation or other business entity which, by merger, consolidation, purchase of the assets, or otherwise, acquires all or a material part of the assets of the Company. Any assignment by the Company of its rights and obligations hereunder to any affiliate of or successor shall not be considered a termination of employment for purposes of this Agreement.

(e) Waiver. No reliance upon or waiver of one or more provisions of this Agreement shall constitute a waiver of any other provisions hereof.

(f) Severability. If any court construes any of the provisions to be unreasonable because of the duration of such provision or the geographic or other scope thereof, such court may reduce the duration or restrict the geographic or other scope of such provision and enforce such provision as so reduced or restricted.

(g) Separate Counterparts. This document may be executed in one or more separate counterparts, each of which, when so executed, shall be deemed to be an original. Such counterparts shall, together, constitute and shall be one and the same instrument.

(h) Headings. The captions appearing at the commencement of the sections hereof are descriptive only and are for convenience of reference. Should there be any conflict between any such caption and the section at the head of which it appears the substantive provisions of such section and not such caption shall control and govern in the construction of this document.

(i) Specific Performance. It is agreed that the rights granted to the parties hereunder are of a special and unique kind and character and that, if there is a breach by either party of any material provision of this document, the other party would not have any adequate remedy at law. It is expressly agreed, therefore, that the rights of the parties may be enforced by an action for specific performance and other equitable relief.

(j) Further Assurances. Each of the parties shall execute and deliver any and all additional papers, documents and other assurances, and shall do any and all acts and things reasonably necessary in connection with the performance of their obligations hereunder and to carry out their intentions as set forth herein.

(k) Entire Agreement. This Agreement constitutes the entire understanding and agreement of the parties with respect to the subject matter of this Agreement, and any and all prior agreements, understandings or representations are hereby terminated and canceled in their entirety.

(l) Neutral Construction. Neither party may rely on any drafts of this Agreement in any interpretation of the Agreement. Each party to this Agreement has reviewed this Agreement and has participated in its drafting and, accordingly, neither party shall attempt to invoke the normal rule of construction to the effect that ambiguities are to be resolved against the drafting party in any interpretation of this Agreement.

(m) Attorneys' Fees. In the event that either party hereto commences litigation against the other to enforce such party's rights hereunder, the prevailing party shall be entitled to recover all costs, expenses and fees, including reasonable attorneys' fees (including in-house counsel), paralegals' fees, and legal assistants' fees through all appeals.

13. SUBMISSION TO ARBITRATION.

Except as hereinafter expressly provided, every difference or dispute, of whatever nature, between the Company and the Executive involving (1) any breach of this Agreement or (2) any other difference or dispute arising out of, related to, under or having any connection with this Agreement, shall be settled and finally determined by arbitration in Denver, Colorado in accordance with the then current commercial arbitration rules of the American Arbitration Association, and judgment upon any award rendered may be entered in any court having jurisdiction, including but not limited to the courts of the State of Colorado, and the determination of such arbitration proceeding shall be binding and conclusive upon the parties.
